

## Mohamed ElGazar

Flutter Developer

### Personal Info

#### Address

Alkhulafa alrashidn st, Mansoura  
Dakahlia , Egypt 35511

#### Phone

(+20) 01010815084

#### E-mail

[Melgazar725@gmail.com](mailto:Melgazar725@gmail.com)

#### LinkedIn

[www.linkedin.com/in/melgazar24](https://www.linkedin.com/in/melgazar24)

### Soft Skills

- Work under pressure
- Team work
- Problem-solving
- Leadership
- Creativity

### Languages

- Arabic
- English

## Summary

I am a skilled Flutter Developer with expertise in Dart programming and RESTful API integration. I excel in developing cross-platform Flutter applications with intuitive UI/UX design. Proficient in Git version control, I have a deep understanding of the mobile development life cycle.

## Education

### Studying bachelor's Mechatronics and Robotics

Faculty of Engineering, Mansoura University, Egypt

Sep 2020 –2024.

GPA: 3.4

Study a combination of electrical, mechanical and software engineering to develop electromechanical products and machines.

### Mobile App Development with Flutter & Dart (iOS and Android)

Udemy

In this learning journey, I mastered Dart programming and developed cross-platform apps for Android and iOS. I integrated Google's Machine Learning Models, monetized apps with ads, and added animations and essential features. I also utilized Firebase for authentication, bug tracking with Crashlytics, and became proficient in Flutter app development with advanced state management.

## Skills

1. Develop and maintain Flutter applications for cross-platform functionality.
2. excellent command of Dart programming language for efficient app development.
3. experience in RESTful API integration to create dynamic and data-driven mobile apps.
4. Experience in state management solutions (ex : Bloc and Cubit ... )
5. Proficiently parse JSON data for seamless integration with the app's data structures.
6. Knowledge of mobile development design patterns (ex : DDD and TDD ... )
7. Implement Git version control to collaborate effectively with development teams and track code changes.
8. understand of the full mobile development life cycle

## Projects

- **Nasia social app:** real time chatting app with a ability to save chats locally using sqflite with firebase server side and has features like adding stories and adding posts , used pattern is domain driven design
- Many small scale projects
